*Child trafficking* | *NSPCC*

Definitions of child abuse Child abuse can be categorised into four different types: neglect, emotional abuse, physical abuse and sexual abuse. A child may be subjected to one or more forms of abuse at any given time. Abuse and neglect can occur within the family, in the community or in an institutional setting.

*Definitions of child abuse - Child and Family Agency*

Emotional neglect can have as great an impact on a child as abuse, even though it's not as noticeable or memorable as abuse is. If you're highly sensitive, there's a good chance that you experience emotions in a very strong way — so much that your emotions can flood you.

*How Does Childhood Emotional Neglect Affect a Highly ...*

Emotional neglect is distinctly different from emotional abuse, in that it involves emotional omissions, rather than direct actions that negatively affect a child's emotional health. In other words, emotional neglect refers to something that is not provided, or withheld, that is deemed necessary for a child's emotional and psychological health.

*Emotional/Psychological Neglect - Child Abuse & Neglect*

Neglect is a serious form of harm. Both families and professionals can become overwhelmed and demoralised by issues of neglect. Children may experience repeated attempts by professionals to try and improve the situation. Published case reviews highlight that professionals face a big challenge in identifying and taking timely action on neglect.
