A informative book with a lot of facts that can be very interesting. Good basic guidance to creating accords and perfumes that I appreciated. The main problem with the book is the lack of coherence and logical order. At times it is as if the author just wrote down her streams of thought and published it without editing.

As long as there has been passion, there has been perfume. Wealthy Romans used to scent their doves to impress their friends; in Shakespeare's time, a woman in love would place a peeled apple into her armpit to saturate it with her scent and then present it to her lover. This book is a sensual journey through one of life's great pleasures.

An artisan perfumer reveals a lost art and its mysterious, sensual history. For centuries, people have taken what seems to be an instinctive pleasure in rubbing scents into their skin. Perfume has helped them to pray, to heal, and to make love. And as long as there has been perfume, there have been perfumers, or rather the priests, shamans, and apothecaries who were their predecessors. Yet, in many ways, perfumery is a lost art, its creative and sensual possibilities eclipsed by the synthetic ingredients of which contemporary perfumes are composed, which have none of the subtlety and complexity of essences derived from natural substances, nor their lush histories. *Essence and Alchemy* resurrects the social and metaphysical legacy that is entwined with the evolution of perfumery, from the dramas of the spice trade to the quests of the alchemists to whom today's perfumers owe a philosophical as well as a practical debt. Mandy Aftel tracks scent through the boudoir and the bath and into the sanctums of worship, offering insights on the relationship of scent to sex, solitude, and the soul. Along the way, she imparts instruction in the art of perfume compositions, complete with recipes, guiding the reader in a process of transformation of materials that continues to follow the alchemical dictum *solve et coagula* (dissolve and combine) and is itself aesthetically and spiritually transforming.

To women the whole world over, perfume means glamour, and in the world of perfume, Jean-Claude Ellena is a superstar. In this one-of-a-kind book, the master himself takes you through the doors of his laboratory and explains the process of creating precious fragrances, revealing the key methods and recipes involved in this mysterious alchemy. Perfume is a cutthroat, secretive multibillion-dollar industry, and Ellena provides an insider's tour, guiding us from initial inspiration through the mixing of essences and synthetic elements, to the deluxe packaging and marketing in elegant boutiques worldwide, and even the increasingly complicated safety standards that are set in motion for each bottle of perfume that is manufactured. He explains how the sense of smell works, using a palette of fragrant materials, and how he personally chooses and composes a perfume. He also reveals his unique way of creating a fragrance by playing with our olfactory memories in order to make the perfume seductive and desired by men and women the world over. Perfume illuminates the world of scent and manufactured desire by a perfumer who has had clients the likes of Cartier, Van Cleef & Arpels, Bulgari, and Hermés.

(indieperfume.com) and author of the Art of Flavor celebrates our most potent sense, through five rock stars of the fragrant world Mandy Aftel is widely acclaimed as a trailblazer in natural perfumery. Over two decades of sourcing the finest aromatic ingredients from all over the world and creating artisanal fragrances, she has been an evangelist for the transformative power of scent. In *Fragrant*, through five major players in the epic of aroma, she explores the profound connection between our sense of smell and the appetites that move us, give us pleasure, make us fully alive. Cinnamon, queen of the Spice Route, touches our hunger for the unknown, the exotic, the luxurious. Mint, homegrown the world over, speaks to our affinity for the familiar, the native, the authentic. Frankincense, an ancient incense ingredient, taps into our longing for transcendence, while ambergris embodies our unquenchable curiosity. And exquisite jasmine exemplifies our yearning for beauty, both evanescent and enduring. In addition to providing a riveting initiation into the history, natural history, and philosophy of scent, *Fragrant* imparts the essentials of scent literacy and includes recipes for easy-to-make fragrances and edible, drinkable, and useful concoctions that reveal the imaginative possibilities of creating with—and reveling in—aroma. Vintage line drawings make for a volume that will be a treasured gift as well as a great read.

Fragrance is as vital a part of your home as colour and texture. It can add depth to an otherwise stark room, warmth to a cold space, create a mood for a particular occasion – it can welcome, comfort and entice as much as any other aspect of interior design. Moving from room to room, *Fragrance Your Home* offers a practical look at the various, all-natural ways you can create transformative and evocative scents inspired by nature. Using seasonal combinations of 7 core essential oils, you'll discover how to make your own candles, diffusers, dried herb combinations, incense and florals to restore, energise and uplift.

Al-Kimia-The Mystical Islamic Essence of the Sacred Art Of Alchemy by John Eberly presents a condensed history of Alchemy told through concise biographies of early Sufi Masters. Chapters examine occult areas of alchemical and spiritual interest such as jafr, an exegetical Qur'anic science akin to Hebrew Qabala; the Qiyamat or 'Great Resurrection', of the heretical Ismaili sect; the contrary path of the saintly Malamatiyya or 'blameworthy ones'; Hermetic color theory, and 'hidden' art history. A glossary of transliterated terms is appended that will greatly help the beginner as well as the advanced student of these subjects.

Discusses the concepts, principles, processes, and applications of spagyrics, the preparation of products from medicinal plants using alchemical methods.

Enter the unexpected and intriguing realm of scent, where fragrances have the power to calm as well as to stimulate. These tales from the ancient quest for pleasing aromas offer a microcosm of history's larger movements, from the scented sails of Cleopatra's barges to modern-day fashion trends. This book is more than a historical overview of one of the world's oldest industries, although it's comprehensive, well-researched, and scrupulously accurate in its details. Neither is it just a book of pretty pictures, even though it's abundantly illustrated with lovely drawings and photographs that include every variety of perfume bottle, ads, paintings, as well as famous (and infamous) figures. Fragrance pursues its subject's very essence, with a rich panoply of insights that ranges from the botanical origins of fragrant oils and the role of aromatics in economic and religious life to the ways in which scents influence behavior and
