Discusses the debate over gun control and gun rights issues, and explores how these issues have effected various societies around the world, with an emphasis on teenagers.

"Guns don't kill people; people kill people." "When guns are outlawed, only outlaws will have guns." "An armed society is a polite society." Who hasn't heard these engaging assertions, time and time again? Burned into the national consciousness by years of targeted, disciplined messaging by the National Rifle Association and others, they are just a few of the bumper-sticker slogans that have defined the gun control debate in America. Long ridiculed by gun control advocates, they are the first words that come to mind for most Americans when the gun issue is discussed. This is the first book both to acknowledge the profound and deadly impact of the gun lobby's bumper-sticker logic on the gun control debate and to systematically expose the misguided thinking at the core of the pro-gun slogans. Indeed, the author contends that the gun lobby's remarkable success in blocking passage of lifesaving gun laws is the result, in large part, of its relentless and

effective use of these simple and resonant messages. Their persuasive power has been a largely ignored influence on the current politics of gun control, in which the gun lobby wields unprecedented power in the Republican Party, while many Democratic Party leaders see the policy benefits of stronger gun laws as not worth the political risk of standing up to the NRA. The book contends that the current political stalemate over guns will never be broken until the pro-gun slogans are exposed as the cleverly disguised fallacies that they are.

This book is an exploration of the gun control debate. The pros and cons of the gun control controversy are examined. The Second Amendment of the United States Constitution is reviewed. Gun Violence Statistics are discussed. The Gun Control Policies of other nations are discussed. The crime rate is observed. The validity of the argument for owning guns for self-defense is questioned.

A gripping chronicle of psychological manipulation and abuse at a “therapeutic” boarding school for troubled teens, and how one young woman fought to heal in the aftermath. At fifteen, Elizabeth Gilpin was an honor student, a state-ranked swimmer and a rising soccer star, but behind closed doors her undiagnosed depression was wreaking havoc on her life. Growing angrier by the day, she began skipping practices and drinking to excess. At a loss, her parents turned to an educational consultant who suggested Elizabeth be enrolled in a behavioral modification program. That recommendation would change her life forever. The nightmare began when she was abducted from her bed in the middle of the night by hired professionals and dropped off deep in the woods of Appalachia. Living with no real shelter was only the beginning of her ordeal: she was strip-searched, force-fed, her name was changed to a number and every moment was a test of physical survival. After three brutal months, Elizabeth was transferred to a boarding school in Southern Virginia that in reality functioned more like a prison. Its curriculum revolved around a perverse form of group therapy where students were psychologically abused and humiliated. Finally, at seventeen, Elizabeth convinced them she was rehabilitated enough to “graduate” and was released. In this eye-opening and unflinching book, Elizabeth recalls the horrors she endured, the friends she lost to suicide and addiction, and—years later—how she was finally able to pick up the pieces of her life and reclaim her identity.
